

Matauri Bay School

Matauri Bay School will deliver a supportive interactive learning environment where all are challenged to fulfill their potential in the world.

Pānui Week 5 Term 2 2021

Principal Kōrero

Tēnā koutou e te whānau,

Ka nui te mahi o te wahanga nei. He ataahua te kite ngā painga me te piki o ngā akoranga o ngā tamariki i runga i te akomanga i runga i ngā wahi kē. Kia kaha rā tātou. A busy start to term 2 with some important kaupapa and enjoyable learning for the children

Mahitahi kapa haka kōkiri tinana i te Kura Kaupapa Māori o Whangaroa

We are so excited to have started our fortnightly mahi kapa haka and sports with our neighbours. We received a wonderful whakataua and kōrero on our kapa haka day. We were able to return the favour and host the sports in week 3. A great start and we look forward to building upon our tatau whakapapa connections. A big mihi to all making this possible.

Wheels safety week

Constable Rob Drummond was able to come up to school and meet with each class. He spoke about road safety issues from seatbelts, crossing the road, biking safely and many other safety tips. Thanks to parents who bought the bikes, picked them up and to all the students listening so carefully.

School Van and Basketball hoop

We would like to thank all those who helped us fundraise for our school van at our gala in 2019. We would also like to thank Frank Stewart and whānau for making this a reality. Another mihi to Henry Kool and Laurie from Imerys who helped us put our new basketball hoop together.. The children love shooting hoops during the breaks.

Weekend sports

Weekend sport is in full swing. We have a school netball team organised and coached by Whaea Trudie. We have players in the midgets, 8's, 9's, 13's and 14's for Kaeo. We also have students playing netball and rugby for other clubs which is great too. Please get out and support our tamariki when you can. We have some really talented players and it's great to see so many of our students and whānau involved.

Māpuna

We have started a learning choices option for students on Fridays where we are not working together with the kura. The options are mahi harakeke, fuse drumming, guitar and singing, lego construction, arts and crafts, rugby and tabloid sports. It gives the students a chance to delve into their interests and learn from some expert teaching help.

Mauri ora kia tātou

Jared Nordstrom
